

GOLDEN JUBILEE SANCTUARY RENOVATION

The picture above is a rendition of the proposed renovation of the sanctuary in commemoration of the Golden Jubilee of our Parish. This renovation makes the tabernacle visible and renders the beautiful stained glass windows as the background to the sanctuary. It will make the sanctuary one level providing more space for liturgical celebrations and avoiding the danger of tripping and falling. Please look at the report of the feasibility study found in this bulletin to know more about this. In the month of February the parish will approach you for your generous contribution towards the renovation of the sanctuary and the parking lot. I request you to be part of our Golden Jubilee renovation and celebrations.
